

Teachers, Parents, Youth Leaders &

KIDS !

Ages 5 to 18

DO SOMETHING ABOUT GLOBAL WARMING !

And...Strip-Mined Mountains, Sick Trees, Damaged Forests, Acid Streams, Lung Cancer, Asthma, Mercury Poisoned Fish, Conflicts Over Oil, Oil Spills, and other problems from using fossil fuels.

**EARN the
CLEAN GREEN POWER CHAMPION PATCH
and WEAR IT ON YOUR BACKPACK OR JACKET.**

Here's how:

1. GO TO www.nesea.org/education/ycleanenergy

Learn about cleaner energy alternatives to dirty fossil fuels by doing some simple activities and an interview with someone conserving and using clean energy (solar panels, hybrid car, wind turbine, geothermal, biodiesel).

DOWNLOAD the FREE Clean Green Power Teacher Resource & Program Guide which has everything except site destination listings.

2. CREATE an energy conservation or clean energy project (art, science, film, craft, brochure, event, contest, game...your choice !), and display or present what you have done in your community to spread the word.

3. FILL OUT the requirements worksheet you will find on-line and describe what you have done; then send it to Susan Reyes at sreyes@nesea.org or mail to Clean Green Power Champion Patch Request at Northeast Sustainable Energy Association, 50 Miles St., Greenfield, MA 01301 Pictures welcome !

**The patch is FREE for Massachusetts residents and \$5.00 for others.
A special GIRL SCOUT patch is also available for this project !**
